Blake Larson

Software Engineer - Santa Rosa, CA

SUMMARY

Creative, detail-oriented, software engineer passionate about UI and UX. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company committed to work on climate.

WORK EXPERIENCE

Software Engineer at 100Devs | (Remote) Los Angeles, CA

January 2021 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications, including highly efficient internal tools and APIs
- Applied Agile methodologies like SCRUM for project management to successfully manage projects and development teams

Recent Projects

My Music Studio (Fullstack React Web App) – A web application for music educators to enhance their teaching and manage their students. Implements advanced React code organization through custom authentication and React Context as well as MVC backend organization with Node, Express, and MongoDB.

Inventory Demo App (Fullstack Next.js Web App) – A demo internal inventory tool that allows the user to utilize full CRUD operations using Next.js and a PostgreSQL database. Built using React best practices to efficiently manage inventory.

Client Website for Karissa DeRousseau – A website built with HTML, CSS, Bootstrap, and JS. Serves as the online presence for Dr. DeRousseau, and increased client interest by 70%.

Full Stack, Freelance Software Engineer | Santa Rosa, CA

June 2020 — Present

- Created full-stack web applications and static websites for clients across small and medium-sized businesses
- Implemented advanced React and state management practices to best serve the clients needs
- Assessed client goals to design and deliver well-crafted products

Private Voice and Piano Teacher | Long Beach, CA / Santa Rosa, CA

May 2018 — December 2021

- Developed my business by creating business operations and organizing student information, repertoire, lesson scheduling, payment, and performances.
- Analyzed student skill sets and interpreted goals to design and execute a tailored lesson plan.

Freelance Real Estate Transaction Coordinator | Santa Rosa, CA

January 2020 — September 2021

- Increased sales over 50% for my agents by orchestrating efficient organization processes.
- Created a web app to efficiently intake and input new contract data to the brokerage system, allowing me to manage 80 documents with real estate professionals through clear and cordial communications.
